

Operating the Toll Station in Seegatterl

Short instructions:

- Drive directly up to the barrier and get out.
- Above the yellow column are two SonnenAlm safes.
- The same code applies to all safes and is valid all day for all cars.
- Open the black flap.
- Enter the code and press #, the green light will illuminate.
- Open the silver box forward.
- Remove the card and hold it to the magnetic field of the yellow column for 5-6 seconds.
- The column will display "Welcome" and the barrier will open, remaining open until the vehicle has passed through.
- Wind up the cord and return the card along with the cord to the safe.
- Close the safe and drive through.
- Upon arrival at the hotel, each room will receive its own card, so the card from Seegatterl will not be needed.

Description with Pictures:

Please drive your car directly up to the barrier so that you can operate the barrier box from the driver's window.

These two safes - Yellow Barrier Box

Then please get out and go to our attached safes.

The same code applies to both safes ("Sonnenalm") and for all vehicles, which you received from us via email.

Open the flap.

Operating the Toll Station in Seegatterl

Enter the provided code and press the hash key. The green light will illuminate and the safe will open.

Please take out the white card and leave the safe open.

At the yellow box, you need to hold the removed card to the circle (for about 5-6 seconds) until "Herzlich Willkommen" appears on the display. The barrier will then open and remain open until you have passed through.

Now please return the card along with the cord to the safe and close it. The safe will close automatically.

You can now drive through.

We wish you a pleasant stay.
